WORK EXPERIENCE

BRAC University

STUDENT TUTOR (CSE), JUNE 2021 - PRESENT

- Teach the fundamentals of programming and CS to freshers.
- Co-arranged intra-batch contest to foster and encourage programming.

Care2U

PROJECT LEAD AND MANAGER, MAY 2020 - JANUARY 2021

- Lead in the design and development of a PPE-donation platform for healthcare workers during COVID-19 pandemic.
- Taught myself basic HTML and CSS, and implemented Agile practices to cut development time by 40%.
- Partnered with local government to reach >500 donations.

Robotics Club of BracU

MEMBER OF CREATIVE DEPT., OCTOBER 2019 - PRESENT

- Arranged and conducted workshops on basics of robotics.
- Co-launched Traction-2020, one of the largest inter-university tech festival in Bangladesh, reaching 300+ participants.

ACADEMIC HISTORY

BRAC University

BACHELOR OF SCIENCE IN COMPUTER SCIENCE AND ENGINEERING

- VC's List (GPA: 3.99)
- Recipient of Merit Scholarship
- Member of IEEE BracU Student Branch and Robotics Club of BracU

Scholastica

CAMBRIDGE INTERNATIONAL O AND A LEVEL

- Class Valedictorian (Joint Best Student of the Batch)
- Recipient of The Daily Star Award 2015 and 2017
- Recipient of High Honours (Class Average > 90%)

NOTABLE PROJECTS, AWARDS AND PUBLICATIONS

- Breast Cancer Prediction using CNN: ongoing thesis; accepted at UBYMK 2021, Ankara; to be published in IEEE Xplore.
- Error Detection and Correction for Onboard Satellite Computers using Hamming Code: project manager and lead researcher; best presentation award at ICSSC, Paris 2020; published through WASET.
- Online Caregiver System: project manager and design lead of a caregiver-hiring platform.
- Question-Answering Bot: used nltk and tf-idf to develop a technical chatbot.
- Traffic Sign Detection using CNN: worked with TensorFlow and GTSRB data to aid in autonomous driving.
- Science Lab Simulator: designed an AR app to help rural students with no access to labs; top-10 of HULT Prize @ BracU among 80+ submissions.
- CCUC 2020: became 2nd Runner-Up nationally for Care2U.
- Classifying Space Rocks using AI: applied CNN to classify moon rocks.
